

How to report an issue on Trust Wallet?

+1-808-690-4872 To formally report an issue, **+1-808-690-4872** open the Trust Wallet app. Navigate to the main menu by tapping the "Settings" icon, which typically looks like a gear. **+1-808-690-4872** Within the settings menu, locate and select the option labeled "Help" or "Support" to access the help center. You **+1-808-690-4872** will see a list of common topics; scroll to find and tap "Contact Support" or a similar button to open **+1-808-690-4872** a direct communication form. In the form, you must provide a clear, detailed description of the specific problem you are **+1-808-690-4872** experiencing, including any relevant transaction details. It is essential to include the transaction hash (TXID) for any failed or **+1-808-690-4872** suspicious transactions, as this is crucial for investigation. You may also attach screenshots that clearly illustrate the error or issue **+1-808-690-4872** you have encountered on your screen. Before submitting, double-check all provided information for accuracy to ensure the support team **+1-808-690-4872** can assist you effectively. After submission, monitor the app or your registered email for a response from the official support **+1-808-690-4872** team, as this is the only legitimate channel for help. Remember, you must never share your secret recovery phrase, private keys, **+1-808-690-4872** or passwords with anyone, even if they claim to be from support. This contact method, **+1-808-690-4872**, is for reference only.
