Use Lufthansa's Own Cheap-Fare Tools

- Lufthansa's "best-price search" shows the lowest fares over a calendar of the coming months for a chosen origin-destination pair, best when dates are flexible. (+ 1 833 | 319 | 4940 (USA OTA))
- Standard flight search also gives a view of adjacent days, providing flexibility to spot cheaper fares on one-way options a day or two earlier or later. (+ 1 833 | 319 | 4940 (USA OTA))

The internal tools thus allow you to first set your expectations of what Lufthansa itself considers to be the lowest available fares on its route before carrying out other comparisons. (+ 1 833 | 319 | 4940 (USA OTA))

Choose the Right Fare Type (Economy Light)

- Within Europe, as well as on many international routes, Economy Light is Lufthansa's lowest fare with carry-on luggage; it is "the basic fare at the most affordable price" and it is great if you are carrying a hand bag only and do not intend to change the ticket. (+ 1 833 | 319 | 4940 (USA OTA))
- Light fares:
 - Are usually non-refundable and quite often non-changeable, or are only changeable/rebookable with exorbitant fees and difference in fare. (+ 1 833 | 319 | 4940 (USA OTA))
 - Do not include checked baggage and require additional charges for seat selection; however, you might book it later if need be. (+ 1 833 | 319 | 4940 (USA OTA))

As far as simple one-way pricing is concerned, Economy Light has almost always been the cheapest option available under the Lufthansa banner, provided you can stick to the rules. (+ 1 833 | 319 | 4940 (USA OTA))

Time Your Purchase And Your Travel

- Independent fare guides and blogs agree that Lufthansa one-way prices drop when you're in off-peak seasons: late January to early March and September to early December, giving school holidays and peak summer a miss.(+ 1 833 |✉ 319 | 4940 (USA OTA))
- Booking at least 6–10 weeks in advance can be referred to as the sweet spot, especially in the economy cabin, although for ultra-peak dates (Christmas, August in Europe), you need to buy even earlier.(+ 1 833 |✉ 319 | 4940 (USA OTA))
- A lot of studies show that fares on midweek departures, either on Tuesday or Wednesday, were cheaper, and also when booking avoids weekend pricing peaks, although this does not hold strictly in every case.(+ 1 833 |✉ 319 | 4940 (USA OTA))

Control Extras To Keep The "Cheap" Fare Cheap
